

CSC TCI 2020 USER CONFERENCE

September 22 – 23 | San Diego, CA

Boost your tax and license compliance operations

Join us at a conference designed to turn ideas into reality, increase skills, and give attendees one-on-one access to subject-matter experts.

The CSC TCI 2020 User Conference is two days of learning and networking opportunities with a community of professionals dedicated to changing the way tax and compliance tasks are managed.

Who should attend?

Professionals interested in networking with industry peers

Organizations looking to reduce overall compliance risk

Users wanting advanced proficiency with compliance software

Professionals looking to find more efficiencies with their software usage

Managers seeking best practices; individuals looking for professional development

Executives scouting for the latest industry trends

Conference-quality educational content

Continuing professional education (CPE) is required on an annual basis for certain individuals to maintain their professional knowledge and stay apprised of changes to the disciplines they work in.

Attending CPE-eligible sessions is a sign that the quality of education you're receiving is of the highest caliber.

Certified educators

- Support and consulting staff are Technology Services Industry Association (TSIA) certified
- Trainers are Talent Development (TD) certified
- Sessions are all led by subject matter experts
- Sessions are CPE-eligible

"You'll learn new things; it's interesting to hear about other companies' experiences."

- N. Kim, Amazon

Conference learning is impossible to duplicate

The power in face-to-face meetings comes from human connections.

Organic small group discussions aren't listed on an agenda, but their value is evident once a few people start discussing topics on a more personal level.

Jump-start your solution training, enroll in best-practices sessions, and spend time networking with other professionals.

Industries represented at the conference

Grocery and restaurant

Utility and telecommunications

Healthcare and real estate

Oil and gas, manufacturing

Distributors and leasing

Retail and business services

Work with support, training, and consulting staff

What's new in
PTMS and LicenseHQ

Tips, tricks, and
troubleshooting

Real estate

Best practices

Advanced Excel

State-specific issues

"I gained numerous professional benefits from attending. A variety of workshops and sessions allowed me to target areas where I wanted to increase my knowledge."

- G. Mattias, Sun Communities

Become a Change Agent

Enter the 2020 Change Agent Awards to win prizes and gain recognition from your peers, your company, and the industry. Summarize how PTMS or LicenseHQ helped your team achieve a win.

Recognize the process improvements your team has implemented to make your operations as streamlined as possible.

Change Agent nominees will have until the start of closing session to solicit votes from attendees. The winning Change Agent will receive prizes and a special recognition at next year's conference.

The value of networking

Expanding your network builds your social capital and adds to your company's reach. Benefit from hearing firsthand industry-tested strategies, workflows, best practices, and expertise.

"I find the User Group luncheons to be one of the most invaluable opportunities offered."

- T. Bellantuoni, Pacific Rim Capital

Conference venue

With views of the San Diego skyline, the Coronado Island Marriott Resort & Spa is ideally situated to provide easy access to Coronado Beach and San Diego attractions, including the Gaslamp District and Balboa Park.

Convince your boss

Save time and money by enhancing your proficiency and improving your processes. Attending provides other opportunities that would benefit you:

- Attending customer-led case studies to get an in-depth look at ways other companies have improved their processes
- Meeting one-on-one with CSC TCI staff members to discuss your business issues
- Exchanging ideas with peers during roundtable discussions, sessions, and events
- Learning new system features and receiving hands-on instruction on how to implement them
- Getting updates from consultants as well as jurisdictional representatives
